Concept Albums Gareth Shute

This book is the first indepth, critical account of the concept album from its highest creative moments to its most pretentious, flailing abominations. This work rediscovers the pre-history of the form in folk and country music, before covering its rise to prominence during the era of psychedelia and prog. It goes on to cover some of the most successful albums in the history of popular music, including - The Beatles' Sgt Pepper's Lonely Hearts Club Band, The Who's Tommy, David Bowie's Ziggy Stardust and the Spiders from Mars, and Pink Floyd's The Wall. The lean years of the concept album are also discussed, especially the eighties when it was kept alive within heavy metal, before being subtly resurrected by the alternative and hip hop artists of the nineties. Now the concept album is back, with artists as varied as Green Day, Arcade Fire, Mastodon, and My Chemical Romance releasing conceptual work in the new millennium, as a way to keep the album format relevant in the digital era. This book reveals the subtle currents that brought the concept album in and out of fashion, showing a new way to look at popular music over the last fifty years and unearthing some of the most ambitious and most bizarre musical projects ever conceived. Its time to delve into the world of the concept album... This is a revised and updated version which also includes images of some of the major artists along the way.

From reader reviews:

Nellie Kim:

This Concept Albums book is not ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is definitely information inside this book incredible fresh, you will get information which is getting deeper anyone read a lot of information you will get. This particular Concept Albums without we realize teach the one who studying it become critical in contemplating and analyzing. Don't be worry Concept Albums can bring if you are and not make your bag space or bookshelves' become full because you can have it in your lovely laptop even cell phone. This Concept Albums having great arrangement in word and layout, so you will not sense uninterested in reading.

Mae Marks:

Here thing why this particular Concept Albums are different and trustworthy to be yours. First of all reading through a book is good but it really depends in the content of the usb ports which is the content is as scrumptious as food or not. Concept Albums giving you information deeper and in different ways, you can find any book out there but there is no guide that similar with Concept Albums. It gives you thrill reading through journey, its open up your eyes about the thing this happened in the world which is possibly can be happened around you. It is possible to bring everywhere like in area, café, or even in your technique home by train. If you are having difficulties in bringing the paper book maybe the form of Concept Albums in e-book can be your alternative.

Freddie Straughter:

That e-book can make you to feel relax. That book Concept Albums was colourful and of course has pictures on the website. As we know that book Concept Albums has many kinds or variety. Start from kids until young adults. For example Naruto or Investigation company Conan you can read and think that you are the character on there. So , not at all of book are generally make you bored, any it offers you feel happy, fun and chill out. Try to choose the best book for you personally and try to like reading which.

Ronald Meyers:

What is your hobby? Have you heard in which question when you got pupils? We believe that that query was given by teacher on their students. Many kinds of hobby, Everyone has different hobby. And you know that little person such as reading or as studying become their hobby. You need to know that reading is very important and also book as to be the point. Book is important thing to provide you knowledge, except your own personal teacher or lecturer. You will find good news or update in relation to something by book. A substantial number of sorts of books that can you choose to use be your object. One of them is actually Concept Albums.
