As a university student, I exactly feel bored to read. If their teacher asked them to go to the library or make a summary for some publication, they are complained. Just small students that have reading's spirit or real their passion. They just do what the teacher wants, like asked to go to the library. They go there but nothing reading critically. Any students feel that reading is not important, boring, and also can't see colorful pictures on there. Yeah, it is to get complicated. A book is very important for yourself. As we know that on this period of time, many ways to get whatever we wish. Likewise, words say, ways to reach Chinese's country. So, this Sunny's Story: A Novel can make you really feel more interested to read.
