Nonlinear Differential Equations and Dynamical Systems (Universitext) Ferdinand Verhulst

For lecture courses that cover the classical theory of nonlinear differential equations associated with Poincare and Lyapunov and introduce the student to the ideas of bifurcation theory and chaos, this text is ideal. Its excellent pedagogical style typically consists of an insightful overview followed by theorems, illustrative examples, and exercises.

From reader reviews:

Jena Alvarez:

This Nonlinear Differential Equations and Dynamical Systems (Universitext) tend to be reliable for you who want to become a successful person, why. The reason why of this Nonlinear Differential Equations and Dynamical Systems (Universitext) can be one of many great books you must have will be giving you more than just simple reading food but feed a person with information that possibly will shock your earlier knowledge. This book is actually handy, you can bring it everywhere and whenever your conditions both in e-book and printed types. Beside that this Nonlinear Differential Equations and Dynamical Systems (Universitext) giving you an enormous of experience like rich vocabulary, giving you trial run of critical thinking that could it useful in your day pastime. So , let's have it and revel in reading.

Victor Banister:

The publication with title Nonlinear Differential Equations and Dynamical Systems (Universitext) has a lot of information that you can discover it. You can get a lot of help after read this book. This kind of book exist new understanding the information that exist in this book represented the condition of the world today. That is important to yo7u to be aware of how the improvement of the world. This book will bring you in new era of the globalization. Then we inquire again, what kind of activity do you possess when the spare time coming to a person of course your answer can unlimited right. Then do you ever try this one, reading books. It can be your alternative in spending your spare time, the particular book you have read is Nonlinear Differential Equations and Dynamical Systems (Universitext).

Jackie Ballesteros:

You could spend your free time to study this book this reserve. This Nonlinear Differential Equations and Dynamical Systems (Universitext) is simple to create you can read it in the park your car, in the beach, train as well as soon. If you did not get much space to bring the particular printed book, you can buy the e-book. It is make you easier to read it. You can save the book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.
