Drawings by Robert Leydenfrost. Is your cat an undiscovered genius? Does your cat keep his / tail flat on the floor when eating? Is your cat able to make sounds on request? Does your cat go to sleep in a closet or drawer and end up trapped inside? The Cat I.Q. Test, devised by a practicing school psychologist, is a simple four-part test. By observing your cat and by using common household items to test his or her reactions, you will be able to measure your cat's coordination, communication, social and reasoning powers.
