Members of social groups, including communities, routinely exert subtle forms of social control on others. The Web: Social Control in a Lesbian Community is a sociological study examining the effects of informal social control—the response to behavior or people regarded as deviant, problematic, threatening, or undesirable—in everyday life. The context of this study is a lesbian community situated in the heartland of the United States. Based on interviews, participant-observation, and document sources gathered over a period of nine years, the book analyzes the effects of social control on relations of power (based on race, class, and sexual identity) among diverse members of a lesbian community. Although much of what is represented in this book is unique to this lesbian community, the forms and functions of social control analyzed here can be found in any human community.
