The world will never again be the same and not only Michele, but also for those who fight by her side. However, determined to give the vampires a resounding blow after their less than stellar showing in Washington, they overlook the obvious.

The vampire's anger at Michele and her unit increases until they put into motion a plan that will either see the unit destroyed forever or break their will in such a way that they will never again question their place in the food chain.

As if that is not enough for Michele to have to deal with, her wolf is demanding that she acknowledges it and what is it with the freaking wings anyway?
