At the Mountains of Madness

H. P. Lovecraft

At the Mountains of Madness H. P. Lovecraft

On an expedition to Antarctica, Professor William Dyer and his colleagues discover the remains of ancient half-vegetable, half-animal life-forms. The extremely early date in the geological strata is surprising because of the highly-evolved features found in these previously unknown life-forms. Through a series of dark revelations, violent episodes, and misunderstandings, the group learns of Earth's secret history and legacy.
