## **Cross Section and Experimental Data Analysis Using EViews** I. Gusti Ngurah Agung

A practical guide to selecting and applying the most appropriate model for analysis of cross section data using EViews.

"This book is a reflection of the vast experience and knowledge of the author. It is a useful reference for students and practitioners dealing with cross sectional data analysis ... The strength of the book lies in its wealth of material and well structured guidelines" ... Prof. Yohanes Eko Riyanto, "Nanyang Technological University, Singapore"

"This is superb and brilliant. Prof. Agung has skilfully transformed his best experiences into new knowledge ... creating a new way of understanding data analysis." Dr. I Putu Gede Ary Suta, "The Ary Suta Center, Jakarta"

Basic theoretical concepts of statistics as well as sampling methods are often misinterpreted by students and less experienced researchers. This book addresses this issue by providing a hands-on practical guide to conducting data analysis using EViews combined with a variety of illustrative models (and their extensions). Models having numerically dependent variables based on a cross-section data set (such as univariate, multivariate and nonlinear models as well as non-parametric regressions) are concentrated on. It is shown that a wide variety of hypotheses can easily be tested using EViews.

"Cross Section and Experimental Data Analysis Using EViews" Provides step-by-step directions on how to apply EViews to cross section data analysis - from multivariate analysis and nonlinear models to non-parametric regression Presents a method to test for all possible hypotheses based on each model Proposes a new method for data analysis based on a multifactorial design model Demonstrates that statistical summaries in the form of tabulations are invaluable inputs for strategic decision making Contains 200 examples with special notes and comments based on the author's own empirical findings as well as over 400 illustrative outputs of regressions from EViews Techniques are illustrated through practical examples from real situations Comes with supplementary material, including work-files containing selected equation and system specifications that have been applied in the book

This user-friendly introduction to EViews is ideal for Advanced undergraduate and graduate students taking finance, econometrics, population, or public policy courses, as well as applied policy researchers.

### **From reader reviews:**

#### **Patrick Walker:**

The book with title Cross Section and Experimental Data Analysis Using EViews has a lot of information that you can find out it. You can get a lot of advantage after read this book. This specific book exist new know-how the information that exist in this publication represented the condition of the world at this point. That is important to you to be aware of how the improvement of the world. This specific book will bring you within new era of the the positive effect. You can read the e-book in your smart phone, so you can read that anywhere you want.

#### **Edward Upton:**

Do you have something that you prefer such as book? The reserve lovers usually prefer to choose book like comic, limited story and the biggest some may be novel. Now, why not attempting Cross Section and Experimental Data Analysis Using EViews that give your fun preference will be satisfied through reading this book. Reading habit all over the world can be said as the opportunity for people to know world better then how they react toward the world. It can't be said constantly that reading behavior only for the geeky particular person but for all of you who wants to become success person. So , for all of you who want to start looking at as your good habit, you could pick Cross Section and Experimental Data Analysis Using EViews become your own personal starter.

#### **Rose Duprey:**

Your reading sixth sense will not betray you, why because this Cross Section and Experimental Data Analysis Using EViews reserve written by well-known writer we are excited for well how to make book which might be understand by anyone who all read the book. Written throughout good manner for you, still dripping wet every ideas and writing skill only for eliminate your own personal hunger then you still skepticism Cross Section and Experimental Data Analysis Using EViews as good book not only by the cover but also by the content. This is one guide that can break don't determine book by its include, so do you still needing an additional sixth sense to pick this kind of!? Oh come on your studying sixth sense already told you so why you have to listening to another sixth sense.

#### **Trent Gibson:**

In this period globalization it is important to someone to get information. The information will make anyone to understand the condition of the world. The fitness of the world makes the information better to share. You can find a lot of references to get information example: internet, paper, book, and soon. You can see that now, a lot of publisher which print many kinds of book. The particular book that recommended for you is Cross Section and Experimental Data Analysis Using EViews this publication consist a lot of the information with the condition of this world now. This kind of book was represented so why is the world has grown up. The vocabulary styles that writer use to explain it is easy to understand. The actual writer made some

investigation when he makes this book. Here is why this book suited all of you.
