The Industrial Organization of Banking: Bank Behavior, Market Structure, and Regulation David VanHoose

This book aims to provide a thorough overview and evaluation of the organisation of banking. It examines the interplay among bank behaviour, market structure, and regulation from the perspective of a variety of public policy issues, including bank competition and risk, market discipline, antitrust issues, and capital regulation. New to this edition are discussions of substantial regulatory restructurings, the economic foundations of international banking, macroprudential regulation, and international coordination of banking policies. The book can serve as a learning tool and reference for graduate students, academics, bankers, and policymakers with interests in the industrial organization of the banking sector and the impacts of banking regulations.
