Programming C# 5.0: Building Windows 8, Web, and Desktop Applications for the .NET 4.5 Framework Ian Griffiths

After a dozen years of incremental changes, C# has become one of the most versatile programming languages available. With this comprehensive guide, you'll learn just how powerful the combination of C# 5.0 and .NET 4.5 can be. Author Ian Griffiths guides you through C# 5.0 fundamentals and teaches you techniques for building web and desktop applications, including Windows 8-style apps.

Completely rewritten for experienced programmers, this book provides many code examples to help you work with the nuts and bolts of C# code, such as generics, dynamic typing, and the new asynchronous programming features. You'll also get up to speed on XAML, ASP.NET, LINQ, and other .NET tools.

- Discover how C# supports fundamental coding features such as classes, other custom types, collections, and error handling
- Understand the differences between dynamic and static typing in C#
- Query and process diverse data sources such as in-memory object models, databases, and XML documents with LINQ
- Use .NET's multithreading features to exploit your computer's parallel processing capabilities
- Learn how the new asynchronous language features can help improve application responsiveness and scalability
- Use XAML to create Windows 8-style, phone, and classic desktop applications

From reader reviews:

Kenneth Hand:

In this 21st millennium, people become competitive in every way. By being competitive at this point, people have to do something to make these individuals survive, being in the middle of the particular crowded place and notice by means of surrounding. One thing that often many people have underestimated it for a while is reading. Yeah, by reading a reserve your ability to survive raise then having chance to remain than other is high. For you personally who want to start reading some sort of book, we give you this specific Programming C# 5.0: Building Windows 8, Web, and Desktop Applications for the .NET 4.5 Framework book as beginning and daily reading publication. Why, because this book is greater than just a book.

Jerry Osbourne:

You may spend your free time to see this book this book. This Programming C# 5.0: Building Windows 8, Web, and Desktop Applications for the .NET 4.5 Framework is simple to bring you can read it in the park, in the beach, train in addition to soon. If you did not get much space to bring the actual printed book, you can buy typically the e-book. It is make you quicker to read it. You can save the actual book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

Alvaro Holloway:

This Programming C# 5.0: Building Windows 8, Web, and Desktop Applications for the .NET 4.5 Framework is new way for you who has intense curiosity to look for some information as it relief your hunger of information. Getting deeper you onto it getting knowledge more you know otherwise you who still having little bit of digest in reading this Programming C# 5.0: Building Windows 8, Web, and Desktop Applications for the .NET 4.5 Framework can be the light food for you personally because the information inside this kind of book is easy to get by means of anyone. These books create itself in the form which can be reachable by anyone, that's why I mean in the e-book contact form. People who think that in reserve form make them feel tired even dizzy this reserve is the answer. So there is absolutely no in reading a reserve especially this one. You can find what you are looking for. It should be here for you actually. So , don't miss the idea! Just read this e-book sort for your better life in addition to knowledge.

Jeffery Chavis:

As a scholar exactly feel bored to be able to reading. If their teacher inquired them to go to the library or to make summary for some reserve, they are complained. Just very little students that has reading's internal or real their passion. They just do what the educator want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that looking at is not important, boring as well as can't see colorful images on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this Programming C# 5.0: Building Windows 8, Web, and Desktop Applications for

the .NET 4.5 Framework can make you feel more interested to read.
