The Lucky Place Zu Vincent

Cassie finds her inner strength through experiencing heartbreaking events. The Lucky Place begins at a horse racetrack, where Cassie, age three, and her brother Jamie, age five, accompany their father on a drinking and betting spree. As she goes with him to make yet another bet, her hand slips out of his and she loses him. When Cassie has been delivered safely home, Cassie's mother is angry and Cassie vows never to lose Daddy again. But before long, Mama has had enough of Cassie's father. She introduces Cassie and Jamie to Ellis. Cassie's father slowly exits from her life as Ellis enters it, eventually becoming her stepfather. Her father continues to pop in and out of her life unexpectedly, while Ellis provides a stable, loving home. Just when life seems pretty wonderful, Ellis is diagnosed with cancer. He takes the family on a summer-long camping trip where he spends time with Cassie. From early childhood to early adolescence, her experiences with both fathers generate conflict and loss and help Cassie discover that her true lucky place is within herself.

Here's what I think. I think having two daddies is like riding the elephant. You don't know until you get up there what an elephant smells like, or how high you will be on the elephant's back. But then you realize. And the basket tips one way and then the other, like you might fall, every time the elephant steps. —FROM THE BOOK
