Dr. Hall has treated numerous patients who have complained about voices in their heads, eventually being driven to a form of serious psychosis. In his book, he describes his relationship with his significant other, Mallory, a young, attractive woman with a bright future. Upon beginning a new profession, Mallory was suddenly struck down by unexplainable happenings: mind control, surveillance, stalking, and rape. Hall and others sacrificed themselves and their careers to bring her nightmare to an end. What happened to Mallory and what is happening to countless others? Hall's supposition is that we are faced with a type of terrorism that is unseen but just as deadly. Our government satellite surveillance systems are a new way for criminals to gain possession not only of our financial lives, but our most precious resource: Our minds. What can we do and who are these individuals who are trying to control the way the think, feel, act and what we do? Author Bio: Dr. John Hall has published numerous articles in professional journals and currently works as a medical doctor practicing anesthesia and pain management.
