Formulation tools for Pharmaceutical Development (Woodhead Publishing Series in Biomedicine)

Formulation tools for Pharmaceutical Development (Woodhead Publishing Series in Biomedicine)

A range of new and innovative tools used for preformulation and formulation of medicines help optimize pharmaceutical development projects. Such tools also assist with the performance evaluation of the pharmaceutical process, allowing any potential gaps to be identified. These tools can be applied in both basic research and industrial environment. Formulation tools for pharmaceutical development considers these key research and industrial tools.

Nine chapters by leading contributors cover: Artificial neural networks technology to model, understand, and optimize drug formulations; ME_expert 2.0: a heuristic decision support system for microemulsions formulation development; Expert system for the development and formulation of push-pull osmotic pump tablets containing poorly water-soluble drugs; SeDeM Diagram: an expert system for preformulation, characterization and optimization of tables obtained by direct compression; New SeDeM-ODT expert system: an expert system for formulation of orodispersible tablets obtained by direct compression; and 3D-cellular automata in computer-aided design of pharmaceutical formulations: mathematical concept and F-CAD software.

- Coverage of artificial intelligence tools, new expert systems, understanding of pharmaceutical processes, robust development of medicines, and new ways to develop medicines
- Development of drugs and medicines using mathematical tools
- Compilation of expert system developed around the world

From reader reviews:

Jerry Brock:

What do you with regards to book? It is not important along? Or just adding material when you really need something to explain what your own problem? How about your extra time? Or are you busy person? If you don't have spare time to complete others business, it is make one feel bored faster. And you have extra time? What did you do? Everyone has many questions above. They have to answer that question mainly because just their can do that. It said that about book. Book is familiar on every person. Yes, it is proper. Because start from on kindergarten until university need this specific Formulation tools for Pharmaceutical Development (Woodhead Publishing Series in Biomedicine) to read.

Jennifer Frederick:

Reading a publication tends to be new life style within this era globalization. With examining you can get a lot of information which will give you benefit in your life. Together with book everyone in this world can share their idea. Books can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or perhaps their experience. Not only the storyline that share in the textbooks. But also they write about the information about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors these days always try to improve their expertise in writing, they also doing some study before they write on their book. One of them is this Formulation tools for Pharmaceutical Development (Woodhead Publishing Series in Biomedicine).

Michael Albright:

As we know that book is important thing to add our expertise for everything. By a e-book we can know everything we really wish for. A book is a range of written, printed, illustrated or perhaps blank sheet. Every year had been exactly added. This guide Formulation tools for Pharmaceutical Development (Woodhead Publishing Series in Biomedicine) was filled in relation to science. Spend your time to add your knowledge about your technology competence. Some people has several feel when they reading a new book. If you know how big selling point of a book, you can experience enjoy to read a publication. In the modern era like today, many ways to get book that you wanted.

John Damm:

A lot of e-book has printed but it is unique. You can get it by web on social media. You can choose the very best book for you, science, comic, novel, or whatever through searching from it. It is named of book Formulation tools for Pharmaceutical Development (Woodhead Publishing Series in Biomedicine). You can add your knowledge by it. Without leaving the printed book, it could add your knowledge and make you actually happier to read. It is most significant that, you must aware about guide. It can bring you from one destination to other place.
